

# Performance Analysis

How does your entire website perform in different browsers? *Performance Analyser* is a powerful tool that analyses the performance of your website in real browsers. It provides the essential metrics that you need to understand, compare and optimise website performance of your website across the browsers that are important to you.

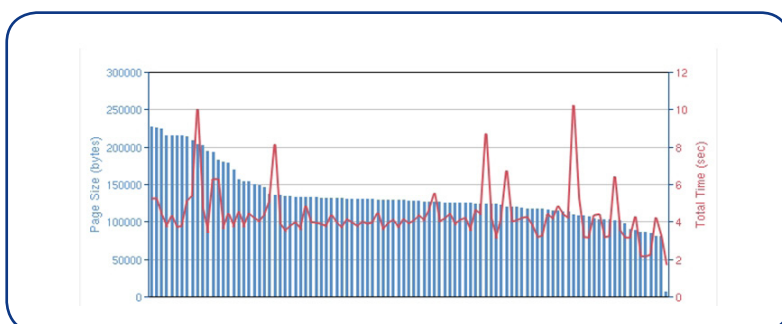

## Key Features

- Scan the breadth & depth of your entire website with a one touch crawl facility to identify the worst performing pages
- Capture and measure critical performance events that affect your conversion:
  - When the page is loaded
  - Render start times (specific to browser)
  - Page object sequence
  - Page completion
  - Page Weight
- Test across a range of browsers including Internet Explorer (v 6, 7, 8, 9) and Firefox (v 2, 3, 3.6, 4, 5, 6)
- Quickly Identify:
  - The slowest pages
  - The biggest pages
  - Pages containing errors

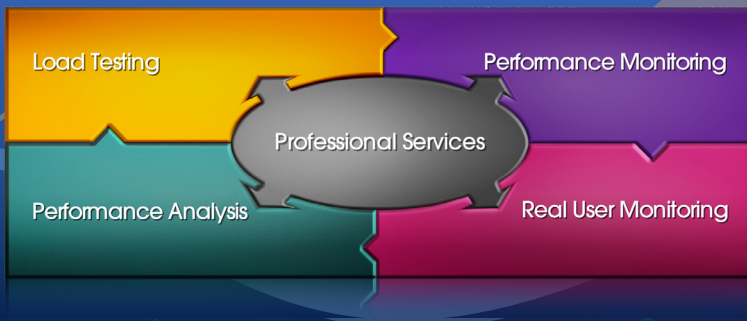

## Why Site Confidence?

- **Experience** - founded in 2001 as one of the UK's first web monitoring companies, our reputation is well established and respected.
- **Independence** – we are independent from any hardware or software provider, so our advice is always unbiased.
- **Service** – we are fast, responsive and proactively tailor our services to meet your requirements.
- **Value** – our services offer genuine value; you only pay for what you need.

	Render Start (sec)	DOM Load (sec)	On Load (sec)	HTTP Load (sec)	Total Time (sec)	Page Size (bytes)
http://www.siteconfidence.com/	3.199	3.520	5.064	5.227	5.236	446,804
http://www.siteconfidence.com/	4.790	4.814	10.107	10.074	10.074	410,382
http://www.siteconfidence.com/	2.495	2.614	3.087	3.142	3.142	89,486
http://www.siteconfidence.com/	2.448	2.764	3.776	3.776	3.776	194,484
http://www.siteconfidence.com/	1.937	2.074	2.934	3.932	4.037	107,021
http://www.siteconfidence.com/	1.721	2.099	2.498	2.621	2.642	395,441

## Key Customer Benefits

- Identify performance issues before they impact your customers.
- Free up your testers from hours of tedious manual performance testing.
- SaaS means you don't have to worry about the testing infrastructure.
- Use the site crawl to get 'the big picture' then drill down into problem areas.
- Get advice on what to fix.
  - Get advice on performance improvements that can be made such as speeding up your site, or reducing bandwidth with compression and caching – showing you where to make those changes.
- Compare page objects in each browser.
  - Compare the object breakdown across the browsers easily – giving the visibility of which objects are downloaded by which browsers.

## About us

Site Confidence is the UK's leading web site performance monitoring company. We provide independent web performance monitoring and load testing services to over 400 blue chip clients, protecting billions of pounds of online revenues and monitoring 5 million web pages every week.

Our tailored performance monitoring and load testing services present you with fast, useful, cost-effective information about your web sites, emulating your customers' experience. This real-time information allows you to detect performance problems and respond quickly to prevent future slowdowns or outages.

Site Confidence is an NCC Group company. NCC Group is a leading global provider of independent escrow, IT assurance and information security services.

## Best Practice Performance Management

Combine with Performance Monitoring & Load Testing to get a 360 degree view of your website performance
